

Printing.
Simplified.

TAP TO PLOT

the **vision.**

"To be the essential **digital printing partner in the global market**, making the transition from digital design to physical reality effortless and stress-free for every user."

the **mission.**

"To **revolutionize the printing experience** by combining precision technology, high - quality output, and seamless logistics, empowering professionals and students to focus on their craft."

the **goal.**

"To become and lead the digital printing industry within the Philippine market in the span of **three to five years.**"

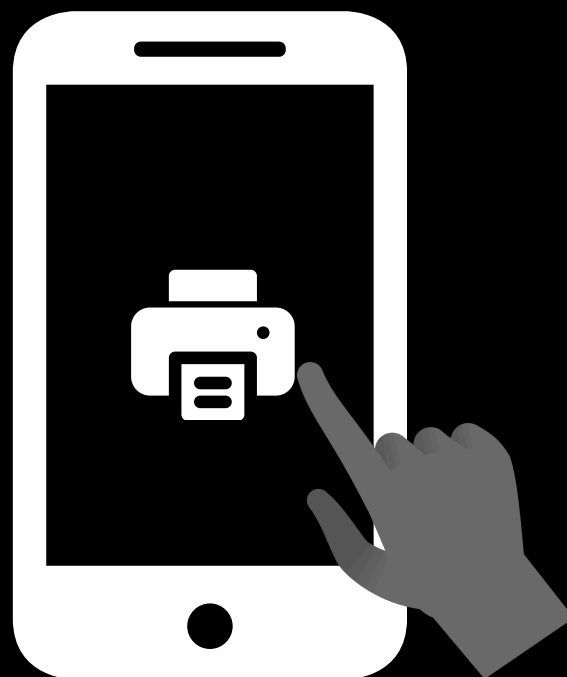

the **question?**

How many hours of your life have been wasted sitting on a plastic chair in a print shop, just waiting for a plotter to finish?

Not everyone has the leisure to spend their effort and time to go in a printshop.

Have you ever finished a 3D model/document at 3:00 AM, only to realize the nearest shop won't open for another five hours?

Not everyone has the capacity to afford their very own printers.

What if there's a printshop that you carry in a **tap of a button** that is available for you **24/7**?

Problem

INCONVENIENT ACCESS: LACK OF 24/7, PORTABLE PROFESSIONAL PRINTING.

TRAVEL BARRIER: WASTED TIME COMMUTING TO PHYSICAL PRINT SHOPS.

Customer Segments

CONSTRUCTION PROFESSIONALS
STUDENTS
BPO PROFESSIONALS

Unique Value Proposition

APP-BASED ORDERING WITH SPEED DELIVERY
24/7 INSTANT-ACCESS KIOSKS

Solution

THE SUPER APP: INSTANT FILE UPLOAD AND SETTING CONFIGURATION.

SMART KIOSKS: 24/7 SELF-SERVICE KIOSKS AT UNIVERSITIES AND MALLS.

EXPRESS LOGISTICS: SPECIALIZED RIDERS FOR "CASH ON DELIVERY" (COD).

BUSINESS MODEL CANVAS

Channels

DIGITAL: MOBILE APP (IOS/ANDROID) AND WEB PORTAL.

PHYSICAL: AUTOMATED KIOSKS AT DAVAO UNIVERSITIES AND TRANSPORT HUBS.

PROFESSIONAL: PARTNERSHIPS WITH UAP DAVAO AND DESIGN FIRMS.

Revenue Streams

SERVICE FEES: PER-PAGE (2D) OR PER-CM (3D) PRINT COSTS.

KIOSK PREMIUM: CONVENIENCE FEES FOR INSTANT SELF-SERVICE PRINTING.

CORPORATE SUBS: RECURRING MONTHLY ACCOUNTS FOR DESIGN STUDIOS.

Cost Structure

HARDWARE: INDUSTRIAL PLOTTERS, 3D PRINTERS, AND KIOSK TERMINAL UNITS.

TECH: APP DEVELOPMENT, SERVER HOSTING, AND KIOSK SOFTWARE.

OPERATIONS: RIDER COMMISSIONS, MARKETING, AND KIOSK MAINTENANCE.

Key Metrics

TURNAROUND TIME: ORDER-TO-DOOR DELIVERY SPEED.

KIOSK UTILIZATION: DAILY VOLUME OF PRINTS PER KIOSK LOCATION.

APP RETENTION: FREQUENCY OF REPEAT PROFESSIONAL ORDERS.

the cost comparison.

Size	Lowest (Bulk/Student)	Average (Standard)	Highest (Premium/Photo)
A4	₱3.00 – ₱5.00	₱7.00 – ₱10.00	₱15.00 – ₱25.00
Long (8.5 x 13)	₱4.00 – ₱6.00	₱8.00 – ₱12.00	₱20.00 – ₱30.00
Short (8.5 x 11)	₱3.00 – ₱5.00	₱7.00 – ₱10.00	₱15.00 – ₱25.00
A3	₱10.00	₱25.00	₱60.00 – ₱100.00
20 x 30 (Poster)	₱25.00	₱35.00	₱50.00

Order Receiving Device Idea (Sunmi v2 Printing Counterpart)

the **market survey results.**

The initial idea here was to see what are the **market demands of architecture students** but we are motivated to gain more data insights to make and refine the concept of the business through app testings and more data surveys.

Target Audience & Peak Demand

Our research confirms a concentrated market: 50% of respondents are from MMCM, primarily 4th-year students. **Demand is driven by the "All-Nighter" culture, with over 50% of CAD work finishing between 6:00 PM and 4:00 AM.** The highest volume is in **A3 drafts (45%)** and **20"x30" final boards (40%)**, proving that students need a service that handles both rapid prototyping and high-end plotting during off-hours.

"USE OF A3 & A4 PRINTERS"

The Efficiency Gap (Pain Points)

While price remains a factor, "Time Poverty" is the true pain point. 50% of users identify long waiting lines (1–2 hours) as their biggest risk, and 92% frequently encounter technical errors like wrong scaling or smudges. This validates the need for an app-based "Pre-Print Audit" and remote submission system that eliminates physical waiting time and reduces costly print failures.

"APP BASED SOLUTION"

Demand for Digital Innovation

There is an overwhelming shift toward tech-integrated services: 92% of students demand remote file submission, and 83% are willing to pay a premium for scheduled "Door Dash" style delivery. Additionally, 75% prefer cashless GCash/Maya transactions to avoid counter delays, indicating that the market is ready to abandon traditional "brick-and-mortar" shops for **a mobile-first platform**.

The most critical finding is the unanimous demand for the "Last-Minute Save" feature. 100% of respondents identified the ability to upload files at 2:00 AM for 8:00 AM delivery as the highest value-add. Furthermore, 92% are willing to pay "Rush Fees" to skip queues, proving that our "Printing Monopoly" can command premium pricing by solving the urgent "Jury Week" deadline crisis.

"DIGITAL INNOVATION AND 24/7 KIOSK"

3D Printing & Packaging Opportunities

Market interest in 3D printing is high but restricted by cost concerns (67%) and technical file conversion (25%). Furthermore, students show a strong desire for professional "Presentation-Grade" packaging; they view the "unboxing" and physical condition of their boards as a direct boost to their confidence during panels. This represents a significant secondary revenue stream for premium protective gear and 3D-printed massing models.

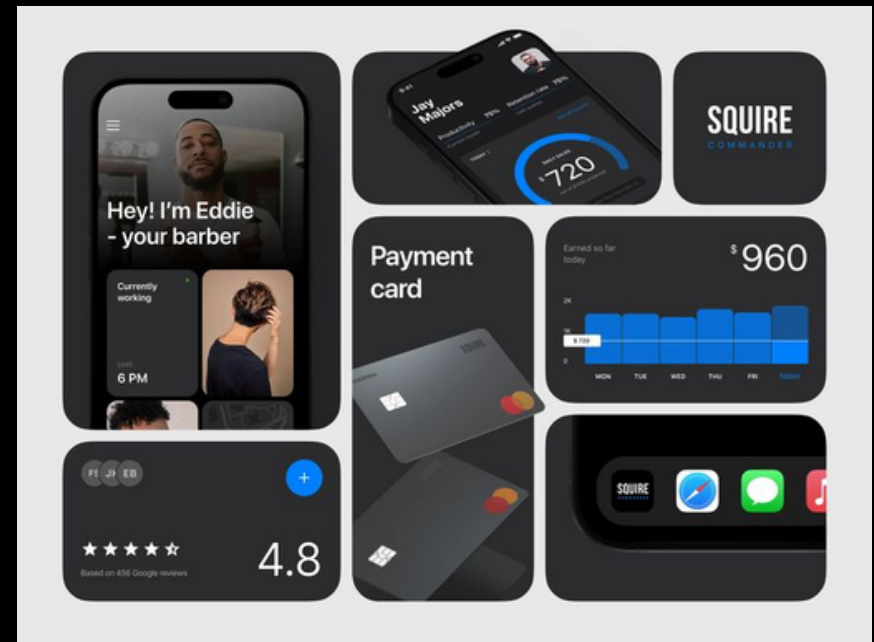

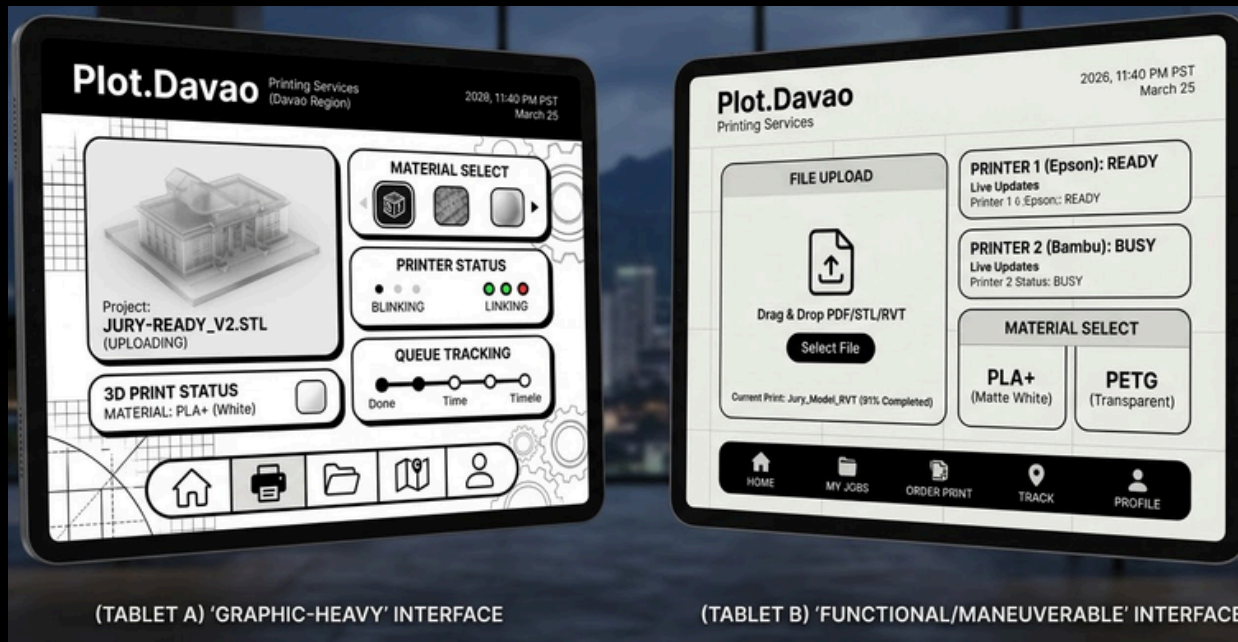

"STRONG MARKETING & ADDED SERVICES"

APP DESIGN

the user interface ideas.

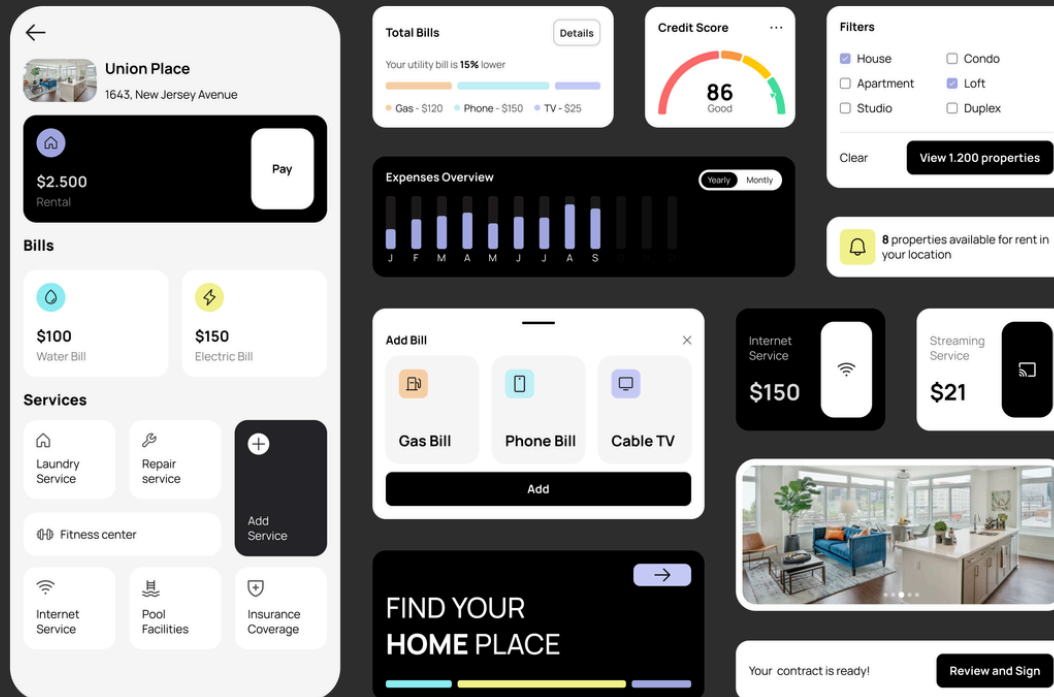

What I want here in interface is we want it to be **functional, simple, and user centric.**

BENTO BOX USER INTERFACE

What We Do Best

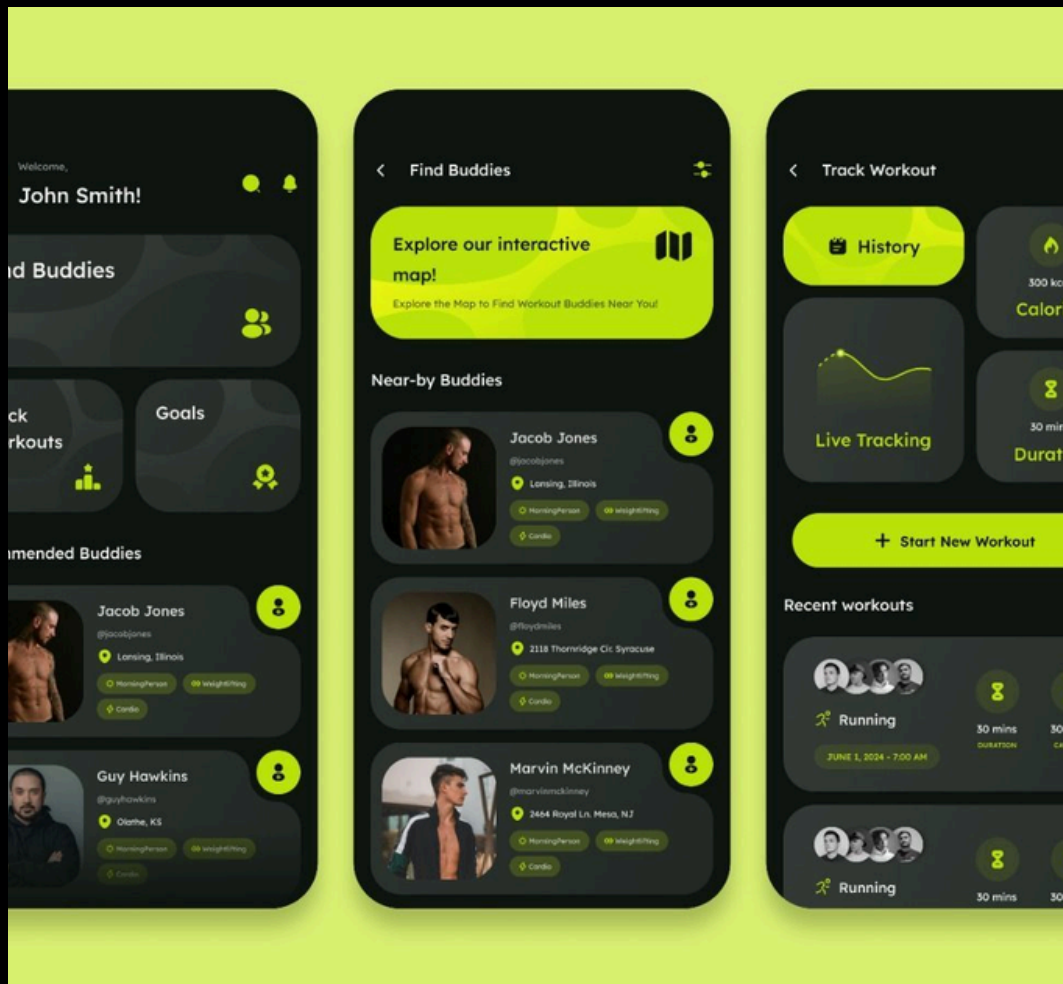

From strategy to execution, our services are built to elevate your brand, engage your audience, and drive measurable growth.

BENTO BOX USER INTERFACE

the user interface ideas.

What I want here in interface is we want it to be **functional, simple, and user centric.**

APP DESIGN REQUIREMENTS:

USERS (Web Design)

- **Review Pop-outs** - To Build Credibility to Users
- **User Profiles** - To Know Identity of the User.
- **Interactive App Video** - To Demonstrate App Usage.
- **Recent Order / Activities** - To Track Past Transactions.
- **Call to Action (Start your Printing)** - To give action.
- **Live Order Status** - To track their order
- *Paid Advertising Area - Gain Ad Revenue*

ADMIN (Web Design / Mobile App Tracking)

Operational

- **List View of Orders** - Live feed of orders
- **File Previewer** - Download

Inventory Management

- **Hardware Status** (Manual/Real-time Tracking)
- **Consumables Tracker** (Manual/Real-time Tracking)
- **Expense Tracker**- Tracker for how much
- **Seasonal Trend Mapping** - To track when is the high volume print

Logistics

- **Rider Assignment** - Map for tracking all active riders
- **Dispatch System** - To notify existing riders for orders
- **Cost Management** - Tracker for how much?

User & CRM (Customer Support)

- **User Profiling** - Order History and View Preferences.
- **Live Chat for Customers** - To address customer issues.

the **user interface ideas.**

What I want here in interface is we want it to be **functional, simple, and user centric.**
